

# Congresswoman Lucille Roybal-Allard

## 40th Congressional District

### Do you live or work near the Exide battery plant?

**Exide Technologies** was a battery recycling plant in Vernon, California that contaminated surrounding communities with pollutants like lead. Consuming or breathing certain levels of lead can be a health risk. You can obtain a free blood-lead screening and check whether your home was contaminated by using the services below.

#### Blood testing for lead

Blood testing is free of charge to adults and children living, working, or going to school within 3 miles of the Exide facility. To sign up for a free confidential blood lead screening, please call **(844) 888-2290**. You may also visit [www.bloodleadtesting.com](http://www.bloodleadtesting.com) for more information.

#### Testing your home

To sign up for soil testing, you must check to see if you live within the 1.7 mile radius surrounding Exide. You can call the California Department of Toxic Substances Control (DTSC) at **(844) 225-3887** to find out, or visit their website at [www.dtsc.ca.gov/exide](http://www.dtsc.ca.gov/exide) to view a map.

If you have any questions, please call my district office at (323) 721-8790.
